

## ANNOUNCEMENT

19<sup>th</sup> July, 2022

### Workshop 21<sup>st</sup> June – 22<sup>nd</sup> June 2022 at Dar El Marsa, Tunis.

It gives us great pleasure to announce successful completion of the second in the series of events on corrosion-resistant pipes for the Libyan Oil and Gas industry.

The Workshop was hosted by Mr. Iftikhar ul Haq, Chief Executive Officer of Zulal Water Technology and accompanied by Mr. David Vela, VP Sales & Marketing Eastern Hemisphere at NOV Fiberglass Systems.

Mr. Haq stated that the workshop was a great success and was well attended by some of the largest companies from Oil and Gas sector of Libya. Our great appreciation goes to the active engagement by participants from National Oil Corporation - Libya, Waha Oil Company, Akakus Oil Operations, Harouge Oil Operations, GreenStream, Sarir Oil Operations, and Brega Petroleum Marketing Company.

Mr. Vela further reiterated his enthusiasm on the future of RTP pipe in the Libyan Market. He elaborated the guidelines on the installation of this innovative technology, being a cost-saving alternative to the conventional OPEX-demanding and corrosion-prone carbon steel pipe.

We look forward to continue working closely with NOV in providing the advanced glass reinforced piping technology to **Libyan Oil and Gas Industry** for sustainable development of its oilfields and networks.
